Profitable customers are the lifeblood of every business... and excellent marketing is the process for getting and keeping them. Strategic Marketing Advisors, LLC is a marketing consultancy devoted to helping businesses use their limited resources - time, money, people and systems - to achieve maximum results. We accomplish this by combining our imagination, talents, insights and expertise with theirs.

And even though our customer base consists of some of the world's most creative and successful companies - large and small - in varying industries, they all have one thing in common. That is, they share our enthusiasm for discovering ways to make their businesses more effective.

We provide four basic services - all of which have an educational component. This is based on our firm belief that one of our primary goals must be to transfer our expertise to our clients... so they don't need us any longer. Additionally, we support our clients' desire to achieve their goals affordably, realistically and efficiently and supply the tools necessary to get the job done.
